

CASE STUDY:

# ERP CLOUD IMPLEMENTATION

## BACKGROUND

A major broadcasting corporation specializing in news, entertainment, and sports content was in need of implementing Oracle ERP Cloud. The challenge at hand was finding a partner with the necessary combination of cloud and business process expertise and on-Premises knowledge to migrate data from on-premises to Oracle ERP Cloud. The migration included critical data of customers, suppliers, projects, fixed assets, project budgets, project expenditures, POs, General Ledger, AP & AR invoices and AR receipts.

## CHALLENGE

- Meet the implementation goals and tighter timelines
- Achieve 100% data migration accuracy
- Work on a constrained budget
- Integrate ERP Cloud with other systems

## APPROACH

XTGlobal, using several artifacts of its cloud migration and implementation methodologies, helped the client go-live on time and on budget. Our ERP Consultants helped in migrating data from the on-premises system to the ERP Cloud System. The ERP Cloud implementation is performed for Financials, AR, AP, and Fixed Assets business areas. Some of the key achievements include:

- On-time and under budget completion
- Oracle ERP Cloud Implementation
- Develop Custom Solution for Functional GAPS in AR and AP
- ERP & HCM Cloud Integration
- 100% Data Accuracy is achieved during migration
- Implement Managed File Transfer for secured file transfer in cloud

## RESULT

Engagement was very successful in achieving on-time go-live and cost efficient delivery. Liking the way we work, the client has continued its relationship with XTGlobal into Cloud Support, which is a testament of our workmanship and long-term commitments with our clients.

## PROJECT AT A GLANCE

### ERP CLOUD IMPLEMENTATION FOR BROADCASTING COMPANY

XTGlobal helped the client go-live on time and on budget. Our ERP Consultants helped in migrating data from the on-premises system as well as implementation of the ERP Cloud System.

Through a concentrated commitment to quality, efficiency and service, XTGlobal is proud to provide end-to-end technology solutions for companies large and small. Streamline AP and document processing workflows with our customized automation solutions. Reduce overhead and operational inefficiencies with our extensive business process outsourcing (BPO) services. Staff technical resources and projects with our IT staffing services, and leverage our roster of experienced developers to serve your custom technology needs. Enhance productivity, minimize process bottlenecks and right-size your technical resources, all while realizing dramatic cost savings to your organization.
