

Experience Superfast Agile Innovations with XTGlobal

With shifting conditions and evolving customer demands, adaptability is key. Organizations must break free from silos and embrace collaboration across functions to become agile. XTGlobal specializes in Low Code Application Development powered by Oracle, which helps you build tailored applications swiftly and securely, revolutionizing your digital landscape.

EXPERIENCE DEVELOPMENT INNOVATION AT THE SPEED OF THOUGHT

Low Code App Dev with Oracle APEX

The supremacy of Oracle Application Express (APEX) lies in the fact that any organization, regardless of its industry or size, can accelerate its application development, productivity, and time-to-market, driving innovation and agility across the entire organization.

20x Faster | 100x Less Coding

Wide Adoption Range

- 2M+ live APEX apps
- ~7x YoY growth for new apps
- 2K+ APEX apps created daily

[Source: Oracle]

Embraced by Developers

- 700K+ APEX developers worldwide
- ~25% YoY growth
- ~15% of Autonomous Databases using APEX

[Source: Oracle]

Global Enterprises Can Modernize Mission-Critical Apps with APEX

Application Development with Embedded AI:

Empower developers to be more productive than ever before by leveraging the power of APEX, Generative AI and Machine Learning models.

Spreadsheet Replacement:

Replace spreadsheets with secure, multi-user, and feature-rich web applications.

Legacy Modernization:

Upgrade older systems like Oracle Forms to modern web interfaces and include features like Single sign-on (SSO) etc.

Data Reporting:

Create interactive reports and data visualizations.

External Data Sharing:

Securely share data outside the organization through robust web applications.

Enhancing SaaS and Enterprise Systems:

Extend the functionality of existing software as a service (SaaS) and Oracle E-Business Suite (EBS) systems or any other ERP application.

Ready to Transform with Oracle Low Code?

Contact XTGlobal today to discover how we can help you accelerate innovation, drive productivity, and achieve your digital transformation goals.
